To Whom It May Concern

Trip and I had the opportunity to work together on the 1992/93 United May campaign at Netional Jewish. That campaign produced the highest dollars raised whether the second is no properly of the second in opployee participation. The second is no properly operations and the second is not provided by the second in the second in the second is not second in the second

In looking at Trip and his many talents he is certainly someone that would be an asset to any management team. If you would like any further thoughts from me regarding Trip's qualifications, please call me at 433-6983, ext. 382.

Jan To Suaran

Jan M. Swanson Assistant Campaign Director
